

Climbing Roses

Cl America	coral-pink	8.2
Cl Arborose Kiss Me Kate	Pink	
Cl Blaze	Red	7.2
Cl Don Juan	deep velvety Red	8.2
Cl Fly So High	Magenta	
Cl Iceberg	White	8.5
Cl Joseph's Coat	Yellow blend	7.5
Cl Royal Gold	deep Yellow	7.7
Cl Sally Holmes	buff White	8.9

Climbing Rose Pruning Tip:

Climbing roses often bloom on both old and new wood. Prune only to shape, control growth, or remove dead or damaged canes. Most climbing roses will reach 10—14 feet.

New! for 2025

from Weeks Roses

Angelic Veil	HT
Fly So High	Cl
Easy Charmer	S
In Love Again	HT
Time After Time	F

from Star Roses

Brick House Orange	F
Loves Me Loves Me Not	HT
Sunbelt Garden Flame	F
Tiamo	Gr
Winning Streak	F

from Certified Roses

True Gratitude	S
True Love	S

We recommend planting your new roses with: **Rose Planting Mix, Bumper Crop Rose & Flower Fertilizer,** and **ferti-lome Root Stimulator.** Once planted apply **Bayer 3 in 1 Flower Care** in June, July, and August.

Miniature Roses

Sunblaze Bridal	white
Sunblaze Dragon Fruit	deep pink
Sunblaze Pink	pink

Miniature: Small flowered roses with proportionately smaller foliage, often very compact in habit. Stems are also shorter but still suitable for cutting.

Flower Carpet Roses

Bred for improved disease resistance, prolific blooming, cold hardiness & compactness as a low maintenance groundcover. Flower Carpet Roses are moderate to fast growing to 3ft high and wide.
Colors: **Amber, Coral, White, Red, Scarlet, Yellow, Pink, Pink Splash and Pink Supreme.**

Why buy your Roses from Greenhouse Garden Center?

- We take the guess work out of rose selection. Each of our over **100 varieties** is selected especially to thrive in our unique climate.
- Our roses are grown in containers by growers we have handpicked for their outstanding achievement in plant production. This ensures that you get the best plant available!
- Because we want your gardening experience to be pleasurable and successful, each rose is backed by our **ONE YEAR 50/50 guarantee.**
- We feature rose selections with a **National Garden performance rating** of at least a 6.7 - an average rose, to 10 - one of the best roses! Further evaluation is needed for those with no rating.

David Austin Roses

Alnwick Rose	soft pink	
Carding Mill	orange	8.3
Charles Darwin	yellow	7.3
Desdemona	white	
Emily Branté	soft pink-apricot	
Gabriel Oak	deep pink	
Golden Celebration	rich yellow	8.1
Princess Alexandra	bright Pink	7.9
Princess Anne	pink	
The Poet's Wife	rich yellow	
Windsor	creamy yellow	7.9

David Austin roses will not be available this year due to roses not meeting grower specifications.

Roses in Containers

Choose a relatively large, tall pot—roses send down deep roots, so the taller the container, the better. Plant with our recommended soil, fertilizer and root stimulator plus 1 cup of perlite for better drainage.

When planting a potted rose, remove the nursery container and place in the new pot. Pack the soil around the roots so the soil level is even with soil level of the root ball.

Water as needed in early morning. Try not to get leaves wet which may cause powdery mildew.

See other **Growing Tips** inside this brochure.

AARS Winners

The **All-America Rose** selection was regarded as the most prestigious rose prize in the U.S. for 73 years. The last AARS rose was chosen in 2013 and the program was discontinued. Past winners on our list are identified by the diamond.

AGRS Winners

In 2016 the American Garden Rose Selections™ award replaced the AARS program. The AGRS™ symbol lets you know that this rose has withstood multiple years of scrutiny & evaluation to deem it appropriate for your garden. These winners are identified by the snowflake.

Yves Piaget	deep Pink	HT	7.9

Classifications

F-Floribunda: Medium sized flowers mostly borne in clusters, compact in habit, medium length stems.

Gr-Grandiflora: Large flowers borne in clusters, taller in habit, individual stems are suitable for cutting.

HT-Hybrid Tea: Large flowers generally borne one per stem, medium to tall in habit, long cutting stems.

E-English Highly fragrant, massive blooms, and repeat blooming from David Austin.

Rg-Hybrid Rugosa: Exceptionally hardy, vigorous, usually upright compact plants. Most are recurrent bloomers.

S-Shrub: Free blooming plants broadly varying in size and form, usually good disease resistance & hardiness. Most are grown on their own root.

GC-Groundcover: Low mounding habit with continuous bloom. Excellent for slopes & low accents.

David's Rose Selection Tip:

Most gardeners have the easiest to-care-for roses when they plant Shrubs, Groundcovers, Hybrid Rugosas and Miniatures.

Hybrid Teas, English, and Grandifloras need the most care and protection while the Floribunda, Climbing, and Polyanthas fall in the part-time attention group.

Growing Tips

- **Fertilize** through the growing season. Heavy bloomers are heavy feeders.
- Stop **deadheading** your roses the 1st of September.
- **Mulch** your roses enough to cover the bud graft for winter protection.
- Remember to **water** your roses, and all other plants, through the winter if we get less than an inch of moisture during the month.
- Spray **dormant oil** to suffocate overwintering insect eggs late winter or early spring.
- Prune roses coming out of winter **April 15th**. Take only 30% of the shrub at any one time. Fertilize at the same time and pull the mulch away from the graft. Deadhead throughout the summer for continual bloom. When **pruning**, if the cane is 1/8 inch and larger, seal it.
- While roses can be grown in most sites, too much afternoon shade can allow mildew to occur. Being **too wet** can also cause numerous problems.
