

Climbing Roses

| | | |
|-----------------------------|------------------|-----|
| Cl Arborose Honeymoon White | | |
| Cl Blaze | Red | 7.2 |
| Cl Cecile Brunner | pastel Pink | 8.5 |
| Cl Don Juan | deep velvety Red | 8.2 |
| Cl Good Day Sunshine | deep Yellow | |
| Cl Iceberg | White | 8.5 |
| Cl Joseph's Coat | Yellow blend | 7.5 |
| Cl Perfume Breeze | soft Pink | |
| Cl Royal Gold | deep Yellow | 7.7 |
| Cl Sally Holmes | buff White | 8.9 |

Climbing Rose Pruning Tip:

Climbing roses often bloom on both old and new wood. Prune only to shape, control growth, or remove dead or damaged canes. Most climbing roses will reach 10—14 feet.

Easy Elegance Roses

Easy Elegance Roses, from Bailey Nurseries, marries the **eye-catching beauty of hybrid tea roses** with the **low maintenance of shrub roses**, offering the best of both worlds.

Just plant them in a sunny spot and forget about them. That is until you're struck by their stunning beauty!

These **long-lasting roses** are sure to perform beautifully in your garden all season long, from spring to frost.

No complicated pruning or chemical applications required. **Nothing bugs these roses.** Not even bugs!

Paint The Town, Music Box, Calypso, Kashmir, Sunrise Sunset and Oscar Peterson are some favorites.

We recommend planting your new roses with: **Rose Planting Mix, Bumper Crop Rose & Flower Fertilizer, and ferti-lome Root Stimulator.** **Once planted** apply **Bayer 3 in 1 Flower Care** in June, July, and August.

Miniature Roses

| | | |
|------------------|---------------|-----|
| Rainbow's End | Yellow/orange | 8.6 |
| Sugar Candy Rose | Orange blend | |
| Warm & Fuzzy | warm Red | |

Miniature: Small flowered roses with proportionately smaller foliage, often very compact in habit. Stems are also shorter but still suitable for cutting.

Flower Carpet Roses

Bred for improved disease resistance, prolific blooming, cold hardiness & compactness as a low maintenance groundcover. Flower Carpet Roses are moderate to fast growing to 3ft high and wide.

Colors: **Amber, Coral, White, Red, Scarlet, Yellow, Pink, Pink Splash and Pink Supreme.**

Why buy your Roses from Greenhouse Garden Center?

- We take the guess work out of rose selection. Each of our over **100 varieties** is selected especially to thrive in our unique climate.
- Our roses are grown in containers by growers we have handpicked for their outstanding achievement in plant production. This ensures that you get the best plant available!
- Because we want your gardening experience to be pleasurable and successful, each rose is backed by our **ONE YEAR 50/50 guarantee.**
- We feature rose selections with a **National Garden performance rating** of at least a 6.7 - an average rose, to 10 - one of the best roses!

New from Monrovia

Grace N' Grit™ Landscape Roses

These own-root, well-mannered roses produce loads of flirty, medium-sized blooms. On upright stems, they are perfect for cutting (there's the 'Grace').

Outstanding disease resistance, self-cleaning and moderate sized (5ft. x 4ft.) Proven to thrive in heat & humidity as well as dry, hot summers (and there's the 'Grit').

Colors: **Pink, Pink BiColor, Red, Yellow and White**

The Grace N' Grit, Flower Carpet and Easy Elegance roses are available year round unlike our handpicked selections which are only available starting in May.

Roses in Containers

Choose a relatively large, tall pot—roses send down deep roots, so the taller the container, the better.

Plant with our recommended soil, fertilizer and root stimulator plus 1 cup of perlite for better drainage.

When planting a potted rose, remove the nursery container and place in the new pot. Pack the soil around the roots so the soil level is even with soil level of the root ball.

Water as needed in early morning. Try not to get leaves wet which may cause powdery mildew.

AARS Winners

The All-America Rose selection was regarded as the most prestigious rose prize in the U.S. for 73 years. The last AARS rose was chosen in 2013 and the program was discontinued. Past winners on our list are identified by the diamond.

AGRS Winners

In 2016 the American Garden Rose Selections™ award replaced the AARS program. The AGRS™ symbol lets you know that this rose has withstood multiple years of scrutiny & evaluation to deem it appropriate for your garden. These winners are identified by the snowflake.

Classifications

F-Floribunda: Medium sized flowers mostly borne in clusters, compact in habit, medium length stems.

Gr-Grandiflora: Large flowers borne in clusters, taller in habit, individual stems are suitable for cutting.

HT-Hybrid Tea: Large flowers generally borne one per stem, medium to tall in habit, long cutting stems.

E-English Highly fragrant, massive blooms, and repeat blooming from David Austin.

Rg-Hybrid Rugosa: Exceptionally hardy, vigorous, usually upright compact plants. Most are recurrent bloomers.

S-Shrub: Free blooming plants broadly varying in size and form, usually good disease resistance & hardiness. Most are grown on their own root.

GC-Groundcover: Low mounding habit with continuous bloom. Excellent for slopes & low accents.

David's Rose Selection Tip:

Most gardeners have the easiest to-care-for roses when they plant Shrubs, Groundcovers, Hybrid Rugosas and Miniatures.

Hybrid Teas, English, and Grandifloras need the most care and protection while the Floribunda, Climbing, and Polyanthas fall in the part-time attention group.

Pre-order yours now!**

Growing Tips

- **Fertilize** through the growing season. Heavy bloomers are heavy feeders.
- Stop **deadheading** your roses the 1st of September.
- **Mulch** your roses enough to cover the bud graft for winter protection.
- Remember to **water** your roses, and all other plants, through the winter if we get less than an inch of moisture during the month.
- Spray **dormant oil** to suffocate overwintering insect eggs late winter or early spring.
- Prune roses coming out of winter **April 15th**. Take only 30% of the shrub at any one time. Fertilize at the same time and pull the mulch away from the graft. Deadhead throughout the summer for continual bloom. When **pruning**, if the cane is 1/8 inch and larger, seal it.
- While roses can be grown in most sites, too much afternoon shade can allow mildew to occur. Being **too wet** can also cause numerous problems.
